

POE-130MID - Midspan POE Injector

Power over Ethernet midspan, for feeding the supply voltage into a PoE network at any position required. For this purpose, an existing network cable is fed through.

- 1 port (RJ45) with 10/100/1,000 Mbps
- Output power: 30 W
- Output voltage: DC 56 V
- Compatible with standard IEEE802.3at
- Power supply: \sim 100-240 V/50-60 Hz
- Dimensions: 65 x 40 x 165 mm
- Weight: 230 g

Please order matching mains cable AAC-180/SW or AAC-182/SW separately.

Tekniske data

Description	: Power over Ethernet midspan
Nominal value	: output power: 30 W, output voltage: DC 56 V
Type	: -
Colour	: black
Material	: -
Suitable for	: PoE network
Power supply	: ∿ 100-240 V/50-60 Hz
Admiss. ambient temp.	: -
Dimensions	: 65 x 40 x 165 mm
Length	: -
Mounting dimensions	: -
Weight	: 215 g
Connections	: RJ45
Other features	: -
Packing unit	: 1
