

PA-6FD - Fault Detector Module

Fault detection module

- For PA amplifiers PA-6240, PA-6480, PA-6600 and PA-1960
- Module transmits a 20 kHz pilot tone in order to monitor functions of the PA amplifier
- In case of a fault, a floating relay contact will be opened
- Adjustable sensitivity

Tekniske data

Description	: fault detection module
Nominal value	: -
Type	: -
Colour	: -
Material	: -
Suitable for	: PA-6240, PA-6480, PA-6600, PA-1960
Power supply	: -
Admiss. ambient temp.	: 0-40 °C
Dimensions	: -
Length	: -
Mounting dimensions	: -
Weight	: 44 g
Connections	: -
Other features	: 20 kHz pilot tone
Packing unit	: 1
