

ETS-340TW/WS - PA Speaker Column

The new generation of column speakers from MONACOR:

All the advantages of a column speaker (shape, directional characteristic and mounting) are now combined with an excellent sound quality and a particularly high level stability. With the 2-way ETS speakers in a wooden cabinet (BN: high-quality decorative wood design, WS: white decorative surface with wood pattern), most varying requirements can be met by these speaker systems, like a very good speech intelligibility and at the same time an optimised music reproduction of the full range.

High-end column speakers,
(indoors), 100 V.

Column speakers in a wooden cabinet of compact size, coated with high-quality foils in decorative wood pattern, 2½-way technology with tweeter (25 mm textile dome), clearly extended frequency range compared with standard full range column speakers. The sound is ideally matched to the reproduction of both music and vocals.

- 4 bass speakers, 2 bass-midrange speakers, 1 tweeter
- Spring-loaded terminal with 3 power taps
- 2 x M8 threaded bushing
- Supplied with mounting brackets
- Metal front grille

PROSOUND 01/2008

“Unobtrusive design, good workmanship and technology ... really favourable price.”
